Game Description

The Plush Bus crane is a single player crane style device. It is first played by inserting tokens or money into the coin or bill acceptor. The crane uses an mechanical claw, which the player moves using the joystick control located on the exterior of the machine. The button on the joystick is pressed when the player has positioned the claw. The claw drops automatically and attempts to grab an item for retrieval. If the player does not drop the claw within the allotted time, the claw will drop automatically and attempt to lift a prize off the play field. If the claw does not grab a prize or the prize drops in transit, the claw will return to the redemption area, but no prize will be awarded.

Conditions
